CORNERSTONE OF BAL TIC CHURCH

Will be Laid by Bishop Nilan Sunday Afternoon—Work Well Along on What Will be Handsome Edifice.

Work is well along on St. Mary's church in Baltic, the cornerstone of which will be laid Sunday afternoon, and will mean the gathering of many hundreds of people in that village, as well as many priests.

Bishop Nilan, who will bless and lay the cornerstone, is expected about 2 o'clock, and the ceremony is to take place at 2:45 o'clock. There will be the procession of the clergy from the parochial residence to the site of the new church, where the ceremony will be held, a platform having been erected for that purpose. Following the blessing by the bishop, there will be a

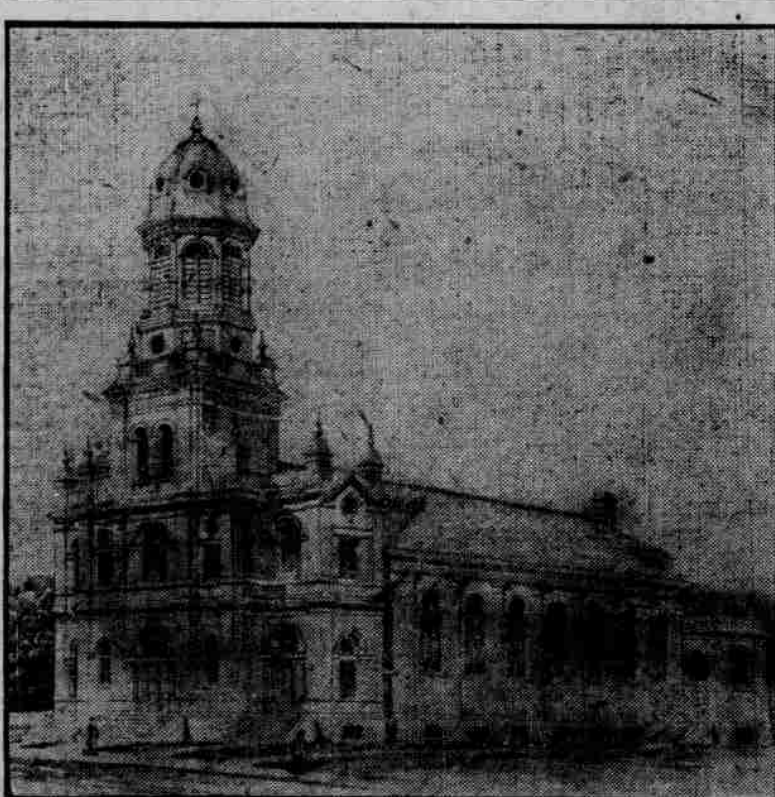

sermon in English by Rev. W. A. Keefe of Plainfield, after which the sermon in French will be by Rev. J. C. Mathieu of Moose, the services lasting about an hour and a half. There will be in attendance about 30 priests, following the exercises they will be the guests of Father Bellerose at luncheon.

West of the Academy.

St. Mary's church is being erected on what was the Walsard property, on the Franklin road, to the west of the Baltic Academy and next to it. It will be a handsome edifice when completed, as shown by the accompanying cut.

Rev. U. O. Bellerose, who has been pastor of the Baltic parish hardly a year, has worked with great earnestness and with brilliant success in the erection of the new St. Mary's. The old church was erected in parts. The first section, measuring 77 by 38 feet, was built during the pastorate of Father O'Reilly, as long ago as 1860. The parish prospered, and the late Rev. Florimond De Bruckner added to the church. The fortunes of the parish have ebbed and flowed for the past fifty years. At one time there were under the jurisdiction of the pastor of St. Mary's no less than two thousand souls. Later on, their number fell to 500. At the present time prosperity seems to be looking in the direction of Baltic and the necessity and feasibility of a new church are apparent to all. Father Bellerose has as his assistant Rev. Joseph Valdanbrini.

Father Bellerose is well known throughout this end of the state. He was ordained in Baltimore June 14, 1898, and appointed assistant at St. Patrick's church in Norwich June 24, 1898. He remained here nearly four years, going to Sacred Heart, Taftville, as assistant on January 2, 1902. Remaining there four years, he was made

ST. MARY'S CHURCH, BAL TIC.

administrator of the parish at Waugan, June 1, 1906, and there he did a great work. He built a parochial school at a cost of \$35,000 and repaired the rectory and church at a cost of \$7,000, of which debt \$10,500 had been paid when he left for Baltic, Oct. 9, 1910.

He is continuing his excellent work in Baltic, and the new church which he is building will cost approximately \$40,000. It will have a seating capacity of 800, will be heated by steam, and lighted by electricity, with provision made for gas also. Handsomely arranged and planned, the structure will be a temple worthy of the faith.

Fine Brick Church.

The church will be 145x70, of pressed brick, with trimmings of cast stone made to imitate limestone, while the roof will be of slate. It will have a tower on the front to the height of 100 feet, the coppered dome being surmounted by a large copper cross.

The grade course of the building is of granite, the side walls being 23 feet above the grade, while the rear wall is 32 feet above the grade. The building is now well along. Contractors Pention and Charney having the first floor all on, and the rear is ready for the roof, the sides up still high.

THE REID & HUGHES COMPANY

of B rift hard pine matched. The finish in general on the interior will be of oak. The decorations will be of cream and gold.

The sanctuary, which is approached by two steps, is 32 feet across the front and 32 feet deep, wherein will be the main altar. The ceiling here will be in the form of a dome and at each side of the main altar will be a sacristy, the switches for electric lights being located in the sacristy to the left of the sanctuary.

On each side of the church there will be eight large double windows, five feet wide and fourteen feet high. There will be 7½ glass on the inside with stained glass outside, which will be covered with wire protectors. This will insure a well lighted church. The columns will be placed 12 feet apart and on these will be placed the fixtures for the gas. Directly over the entrance will be located the organ gallery, which will be 30x60. The steam heater will be located in the basement at the rear.

There are to be two side chapels at the front, of the main sanctuary. It is expected that the church will be entirely completed by Easter. The woodwork is being done by E. Pate-naude of Montreal.

SUGGESTIONS FOR THE HOUSEWIFE.

When your oven does not respond quickly, put a hot stove lid inside the oven under the pudding, or dish which is baking.

A dust brush, such as painters use before applying paint, will unearth lots of dirt from cracks about the house where no cloth or brooms will reach.

Put a small cork in the oil can belonging to the sewing machine. This will prevent spilling oil in the drawer and soiling anything there.

Fill lamps on blotting paper and whatever oil overflows will be absorbed, thus saving the table. Get heavy blotting paper and keep a sheet beside the oil can.

To restore elasticity to rubber (rings or other articles that have become stiff or brittle), soak in one part ammonia and two parts of water, until the desired result is obtained.

For the ladie who admires the life on the ocean wave a sailor's bag of white canvas hung on his door for a laundry bag will be found efficacious in making him keep his apartments "shipshape" and his clothes picked up.

Save old stockings for winding the legs of furniture, bed-a-brac, etc., when moving. When packing for long distance, an article may be first wound with cloth or papers and a stocking slipped over and tied to keep all in place.

To clean chenille table covers and portieres, make a good suds with white soap and soft warm water. Dip the cover lightly through this until clean, then rinse well and hang in the shade

to dry. Do not iron, but brush thoroughly with a soft brush.

The Duke's Preference.

The Duke de Abruzzi is brilliantly engaged—in the Mediterranean. Doubtless he would prefer an engagement on this side of the Atlantic—St. Louis Republic.

A New Record.

If Mr. Taft survives 13,000 miles of banquets, there will be a new record for the gustatory Hall of Fame—Atlanta Constitution.

Bryan's Religion.

Mr. Bryan's religion is summed up in the words, "Love thy neighbor as thyself," provided, of course, that the

Rheumatism Advice Gives Prominent Doctor's Best Prescription—Is Easily Mixed.

"Get one ounce of syrup of Sarsaparilla compound and one ounce of Toris compound. Then get half a pint of good whiskey and put the other two ingredients into it. Take a table-spoonful of this mixture before each meal and at bed time. Shake the bottle before using." This is not new in this city as many of the worst cases of rheumatism and back-ache have been cured by it. Good results come the first day. Any druggist has these ingredients on hand or will quickly get them from his wholesale house. Any one can mix them.

"He Who Hesitates Is Saved!"

The man who delays starting up his house heating apparatus until the biting cold weather is actually upon us will save many dollars and much distressable work. Frequently these first frosty mornings and chilly nights the greater part of the day will prove to be mild and delightful. One or two modern odorless-gas radiators will give you all the heat you need for that morning dip in the right temperature, and to insure a cheerful, warm dining room, light it an hour or so in the evening if you feel the need, where you read or play that game of bridge. Our prices are low. Consult us; we may be able to suggest the right stove for the right purpose. Remember the gas range saves time, saves work, saves dollars every day in the year, the cleanest and best way to cook. The Rumb Water Heater always ready for your inspection.

Gas & Electrical Dep't. 321 Main Street

neighbor believes in government ownership and the initiative, referendum and recall; otherwise, swat him—Houston Post.

Used to Eat 'Em Alive.

Why should a tough steak bother a man of might like Mr. Roosevelt? We imagine that he is fitted by nature to tear one to pieces.—Charleston News and Courier.

Much Like a Toadstool.

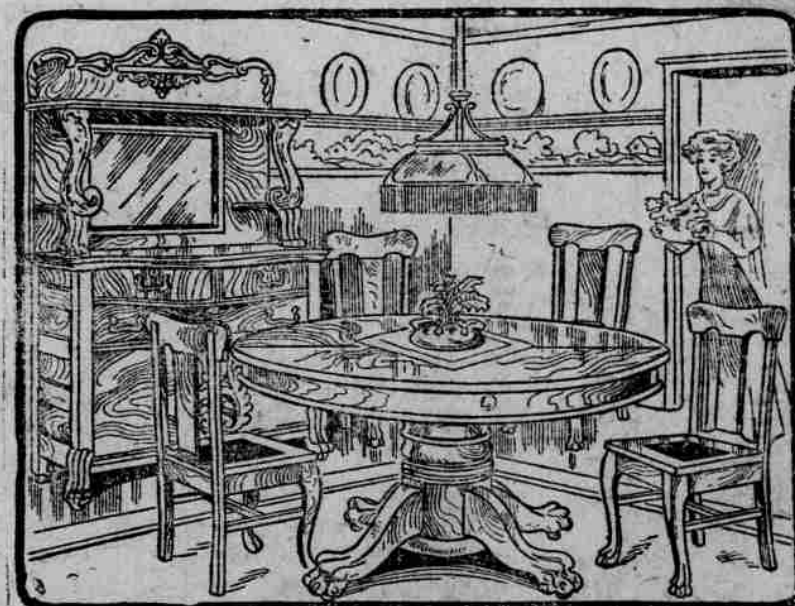

The trouble with many progressives is that they are not sure whether that LaFollette boom is a mushroom or a toadstool.—St. Paul Dispatch.

A Poser for the Colonel.

"I never knew a William to be a bad boy," says the Colonel. Why, then, his refusal to dine with Old Lorimer?—Richmond Times-Dispatch.

Lahn's Prices

are always so low that they will interest the most economical buyers. Seeing is believing. A look at our goods and prices will convince you.
